

**Driving on single track roads:** The majority of the island's roads are single track. Passing places are there for cars to pass and also to allow overtaking. **Always** keep to the left. If a passing place is on the right, wait opposite it on the left hand side of the road. Please do not park in passing places and please let other drivers overtake. The car behind might be a doctor, midwife, vet, or member of the fire brigade or lifeboat crew. Leaflets about driving on single tracks are usually available on the Craignure-Oban ferry.
